Manuscript Number:	Ms_IJPR_94566
Title of the Manuscript:	BIOCHEMICAL SCREENING OF FLUTED PUMPKIN LEAF
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpr.com/index.php/IJPR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	This work appears as a direct lifting of thesis work for publication. However, the authors need to provide justifications for their statement of the Problem and uses of fluted pumpkin especially to be regarded as a review article. The referencing style should conform to the journal standard. The font style should conform to the journal standard. It appears the work was produced in a rush, and the authors were not well organized as can be seen in their presentation. The authors need to work on the manuscript again to enable publication. Also, it appears the article type is more of an original research and not a review article.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
