

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_94931
Title of the Manuscript:	Stability in phonological, yield and yield attributes of chickpea (Cicer arietinum L.) Genotypes under various temperature conditions
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**Lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>Title Effect of heat stress on phonological characters and yield&its attributes in Chickpea genotypes</p> <p>Abstract Add randomised complete block (RCBD) Write where did you get the genotype? Remove these and write are suitable for.... after the name of genotypes</p> <p>Key words Add these words Genotypes Phonological characters Materials and Methods Write with details how to get thes genotypes if it cultivar varieties or induced genotypes?</p> <p>Results and discussion Please write with details the discussion for each result and mention to the reference Remove stability and write Analysis of variance, referring to the start of the results and discussion Referring to the title of table 1 Please remove environmental conditions, then write sowing dates</p>	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	<p>It's prefer to use three numbers of replecates instead of two to reduce the experimental error In this study you sown in various dated these mean heat stress not stability because the sowing was in on location or one environment not four environments but four sowing dates to studied the heat stress.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
