PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Key words	Key words I propose to change: " morphology storage lesion " to " Stored Blood". Abstract -Consider reducing the first part of the Introduction and not making the history of the transfusion. - Summarize the second paragraph Results The figures must be previously presented in the text. References -If the Vancouver system is used, it is not necessary to reflect the name of the citation authors. Suffice with the serial number in the text. - The titles of all journals must be adjusted to the international nomenclature. - I suggest trying to update the citations, if possible. So that the approximate 50% are from the last five years.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
