General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijrrgy.com/index.php/IJRRGY/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. The researchers (s) must redraft the topic. As it is, it is a three in one problem. The topic needs to be drafted in such a way that it clearly shows the problem under study.2. The results under the abstracts are not clearly coming out.3. Data needs to be analysed. What the researchers have simply done is to present the data without any further explanation. Researcher(s) need to adhere to the concept of data presentation, analysis and interpretation.4. Research findings were not discussed. When you are discussing research findings, you are comparing your research findings with research findings from fellow researchers.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
