(<https://journalindj.com/index.php/INDJ/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	the study deals with the influence of cesarean section and postpartum depression the authors examined 405 mothers- a questionnaire was used- the study is biased- since it is not known how EPDS scores were before and during pregnancy - additionally the authors divided the participants in table 1 in three groups where they included gestational age from 14 <sup>th</sup> to 26 <sup>th</sup> week of pregnancy it would be interesting how many of these children survived	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	The paper is nicely written and deals with a quite interesting subject	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
