PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. Please, differentiate between the use of the microbiome and the microbiota2. Please addition some of the paper about your focus research (survey) as a reference like literature review3. Please, write the accurate link information from bioinformatics used in the research4. Please explain the figure in depth with reference, what is the relationship between x and y axes5. What happen with bacteroides and lactobacillus Please explain after 24 hours. And compare with some of the references	
Minor REVISION comments	<ol style="list-style-type: none">1. The name of scientific, please italic if this is species name but if not no problem2. Please write the reference number in order3. Please, check this font4. The figure is not clear please change it (Fig 1)5. Please mention the bacteria name in the conclusion6. Latest references must be used	
Optional/General comments	<ol style="list-style-type: none">1. Please space for the unit like °C2. Use the subscript from the A26/280	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
