

Review Form 1.6

Journal Name:	Journal of Advances in Medicine and Medical Research
Manuscript Number:	Ms_JAMMR_93890
Title of the Manuscript:	Cardiac Myosin-Binding Protein C as a new biomarker in the diagnosis of myocardial infarction
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljammr.com/index.php/JAMMR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Introduction: plasma cMyBP-C levels were significantly increased in patients with AMI (105.1 L 8.8 ng / mL): ????????????????	
Minor REVISION comments	Abstract: the increased cardiac troponins should be written as: the increased Introduction: The European guidelines recommend the measuring ofhs-cTnI should be written as: of hs-cTnI Cardiac myosin-C binding protein (cMyBP-C) is a cardio-specific regulatory protein that plays a role in the regulating should be written as: in regulating immunoassay in 20 patients with STEMI who under went therapeutic should be written as: underwent Conclusion: playing an important role in their medical treatment ofthe patients. should be written as: of the patients	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
