(<https://www.journaljammr.com/index.php/JAMMR/editorial-policy> )

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"> <li>1. Language of the written article is poor. Please recheck it carefully. There are some evidences of weakness in the paper. For example, a number of grammatical errors, including repetitions (of, for, the), there are misspellings/typos in various places. If possible, send the paper for proofreading.</li> <li>2. The originality of the proposed method should be added to the last part of the introduction.</li> <li>3. In the Discussion title, other studies and results should be written more descriptively by adding an additional paragraph.</li> <li>4. Please create a new paragraph in the Conclusion section. Construct information about your future work in 3-4 sentences.</li> <li>5. The paper needs to explain why the work is of significance and applications.</li> <li>6. The paper needs to more compare results with more recent state of the art methods.</li> <li>7. The similarity report ratio was determined to be 22% when references were excluded. The similarity report of the article is high. It should be reduced and some sentences should be corrected in the article.</li> <li>8. It would be better to see more recent research papers in references. Also, refer to the paper closely related to your manuscript topic. Just to find help, paper title "Classification of Tympanic Membrane Images based on VGG16 Model" and "A New Ensemble Approach for Congestive Heart Failure and Arrhythmia Classification Using Shifted One-Dimensional Local Binary Patterns with Long Short-Term Memory" follow similar method. You can also add this studies as a literature review.</li> </ol>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
