General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljammr.com/index.php/JAMMR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. Authors may not have English as their first language but will need someone proficient in English to make major corrections to the Manuscript.2. The Authors said study was "retrospective", this needs to be confirmed as they also noted that informed consent was obtained and clinical examination was done for those enrolled. This needs to be sorted out.3. The Results section: Table 2 needs to be redesigned to make for easy read. Table 4 needs to be removed and written as prose.4. The Discussion section needs to be completely re-written to actually discuss the findings of their work as well as the possible explanations of what authors found. Avoid one-sentence paragraphs and write 5-6 sentences in each paragraph consisting of related matters. Grammar needs to be overhauled.	
Minor REVISION comments	See attached manuscripts corrected using tracking changes	
Optional/General comments	Major revision required	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
