General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljammr.com/index.php/JAMMR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Statistical analysis. Please explain a little more the way you have constructed the ROC analysis. With complicated vs not? Or with diabetic's vs not? The regression analysis is not explained in the statistical analysis section either. "By using univariate analysis, it was found that a significant correlations existed between the occurrence of complications and fasting blood sugar." What is the variable referring to complications that you correlated? Number or complications? Complications yes/no? Please explain in the statistical analysis section.	
Minor REVISION comments	The minor revision comments are signalled in the text with the tracking changes option of the word.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
