

Editor's Comment:

I have reviewed the manuscript and feel that the manuscript is not ready for publication unless the following issues are addressed:

1. There are too many grammar errors/typos. Even the ABSTRACT is not free of errors!
2. Equations are poorly produced. The equations should be retyped correctly.
3. The ADF test results should be collapsed into a table
4. The research results should be detailed with policy implications discussed.

The REFERENCE section is poorly done. Some references are incomplete. For example Olomola and Adejumo (2006).

Editor's Details:

Dr. Olusegun Felix Ayadi
