

**Editor's Comment:**

I have reviewed the manuscript. The abstract is poorly written. The author should re-write the abstract and correct the numbering of equations in the manuscript. At it stands two equations have the number 1 and two equations have the number 2. The equation numbering should be continuous throughout the manuscript. You can publish once the corrections are made.

**Editor's Details:**

Dr. Olusegun Felix Ayadi  
Professor, Jesse H. Jones School of Business, Texas Southern University, TX., USA.
