

## Review Form 1.6

Journal Name:	<a href="#">Journal of Engineering Research and Reports</a>
Manuscript Number:	Ms_JERR_94242
Title of the Manuscript:	Hydraulic vibration hammer without resonance technology status study
Type of the Article	Review Paper

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalsrr.com/index.php/JSRR/editorial-policy>

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ul style="list-style-type: none"> <li>Citation of Figure 1, Figure 2, Figure 3 is missing.</li> <li>Better to use APA citation for in-text citation as the publication year is missing.</li> <li>Better to describe the shift change of the vibratory hammer in terms of technology with an illustrative flow chart that demonstrates the research in chronological order.</li> <li>The paragraphs need to be reordered as per the order: Various types of vibration hammers, technology development in the vibration hammers, limitations, how hydraulic vibration hammer advances vibration hammers, advantages, applications and limitations of hydraulic vibration hammer.</li> <li>Remark: Just pointing the work done by researchers block by block would not convey the flow of information in an order. Thus, rephrasing the literature as per the flow discussed above describes better flow of information.</li> <li>Rephrase the abstract giving at least one outcome from the research done in the concluding line.</li> </ul>	
<b>Minor</b> REVISION comments	<ul style="list-style-type: none"> <li>Create hyperlink of the paper or the reference for the notation used for the citation of paper such that on clicking can go to the citation of the paper in the reference list or directly to the paper on the webpage.</li> <li>A tabulated summary of the literature (work done) in the hydraulic vibratory hammer would be better for the reader to overview the work done (investigation) by the researchers.</li> <li>The last line of the abstract should be the part of the conclusion as the future work or future scope of the study.</li> </ul>	
<b>Optional/General</b> comments	<ul style="list-style-type: none"> <li>Can add 2-3 more keywords.</li> </ul>	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

### Reviewer Details:

Name:	Shivam Singh
Department, University & Country	Indian Institute of Technology, India
