PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments Materials & methods: Results & discussion: Conclusion: References:	The methodology employed is correct and the development of the experimental part was well performed. The results were presented and discussed correctly. The same remark above. References provided good support for the present work.	
Minor REVISION comments	In order to contribute, I tried to correct some writing errors in the text. But as there were many, I gave up. Therefore, I advise that the Author perform a complete review of the text. The content is very good and deserves a text with the same quality.	
Optional/General comments	No comments	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes. Kindly please write down the ethical issues here in details)</i>
