PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There is serious need to improve on the use of language The study is quite important and very essential. Healthcare workers should be VERY knowledgeable about Hospital Hygiene generally and its practice and procedure. The study was well conceived and executed; but the analysis and presentation of Results require some attention. The Discuss was a little weak but permissible for a Short Article. Listing of References should be checked for inconsistency. One or two 2022 references would add value to the paper. Kindly see suggestions and or observations made on the MS, please.
