PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	No	
Minor REVISION comments	<ol style="list-style-type: none">1. An abstract is quite long. Give a brief conclusion.2. No. 2 Material should have "s"3. The results of No. 3.4 should give an overview of the experiment, the animal toxicity; signs observed to remind the readers again then go to the special findings in brief. The authors may give more tables to help in data explanation. Don't give all things in the text. Make like the topic 3.5 "Analgesic activity", also correct the series of topics in the right way.4. The conclusion is too long. Cut and give only the main idea.	
Optional/General comments	The manuscript is presented in a good writing, even there is some words should be checked for the correct usage e.g /kg b.w. This makes good presentation. The materials and methods give clear of the experiments. However, the results and discussion need the good series of explanation, make more table and give brief in the text as mention above.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
