

## Review Form 1.6

Journal Name:	Microbiology Research Journal International
Manuscript Number:	Ms_MRJI_94542
Title of the Manuscript:	Protease Production by Submerged Fermentation in Shake Flasks Using Bacillus subtilis Isolated From the Soil
Type of the Article	

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalmrji.com/index.php/MRJI/editorial-policy>

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>Good research work however the following points need to be addressed:</b> <b>1. The authors have mentioned Protease Production by Submerged Fermentation in Shake Flasks. Are there any other methods of protease production? If yes, kindly justify your reason for choosing this technique</b> <b>2. Kindly elaborate the statistical tests used for analysing the data in your manuscript</b> <b>3. Is there any particular type of soil where this particular species intend to grow? How did you select the site for soil collection for retrieving them?</b> <b>4. Kindly rephrase the discussion mentioning what were the findings of your study and how existing literature supports/refutes the findings</b> <b>5. Please add conclusion in your manuscript</b>	
<b>Minor</b> REVISION comments	Overall grammar and lingua of the manuscript need to be improved specially have to be careful while using punctuation marks etc	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
