

Review Form 1.6

Journal Name:	South Asian Journal of Research in Microbiology
Manuscript Number:	Ms_SAJRM_94658
Title of the Manuscript:	Antimicrobial Sensitivity Profile of Mimosa pudica Leaf Extract and its Combination Treatment with Potassium aluminum sulphate on Some Bacteria
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The Ms is a great attempt from authors and well presented the data; to further make it attractive and multinational I refer below some citation to take help from the and more widen the study to other countries too. Specially the importance of medicinal plants; antimicrobial activities; https://doi.org/10.3390/app11115168 ; https://doi.org/10.1155/2022/7123521 https://doi.org/10.1155/2022/7990508 ; https://doi.org/10.3390/molecules25194528 The below references is very matching with antimicrobial activities of inorganic material. https://www.tandfonline.com/doi/full/10.2147/DDDT.S225311 2) Clearly mentioned aim and objective of the study in the last lines in introduction section. 3) Add the finding and recommendation relevant to the aim and objectives in conclusion section. 4) what is the mechanism or philosophy behind the combined treatment of Leaf Extract and its Potassium aluminum sulphate; how much the combining amount; without combining separate effect need to be study and then provide the output that these activities increase or decrease and what will be the side or toxicological effect.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
