PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The study submitted for expertise is certainly complete in terms of results but seriously lacks the scientific rigor to introduce and discuss the study. The result part is just a series of tables without any explanation. Authors need to consolidate the Introduction and Discussion parts. References must be supplemented by much more recent references.	
Minor REVISION comments	Many minor revisions needed; typographical errors, improved presentation of tables and chemical equations.	
Optional/General comments	Introduction and Discussion must be improve "Results" must be present	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details) Why such a large sample of rats for this study?
