SDI EDITORIAL COMMENTS FORM

EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
The references in the revised manuscript number 2021/CSIJ/68212 still need revision as indicated by one reviewer. There is no consistent style in the references. The first, third and fourth references have no journal titles. The fifth reference journal lists the Vacedonian Journal of medical science which doesn't exist. The tenth reference should be cited as follows: Cell Metab. 2008 Jun; 7(6): 476–484. doi: 10.1016/j.cmet.2008.03.010. The next reference (11) refers to an Alzheimer's Matters Blog. The next reference (12) should refer to BMC Cardiovascular Disorders Article number: 74 (2016). Reference 13 gives PubMed as a journal. PubMed is the U.S. NIH journal article database. There is no information for reference 14 other than the journal title and publication date. The authors need to significantly improve the reference section for further process.	**Corrected** **Correction made**
