

Review Form 1.6

Journal Name:	Asian Hematology Research Journal
Manuscript Number:	Ms_AHRJ_93562
Title of the Manuscript:	SCLEROSING EXTRAMEDULLARY HEMATOPOIETIC TUMOR PRESENTING WITH GROSS ASCITES AND PERITONEAL NODULES: A DIAGNOSTIC CHALLENGE ON CYTOLOGY
Type of the Article	Case report

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalahrj.com/index.php/AHRJ/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Well written manuscript. It would be worthwhile to know if any molecular diagnostic test – JAK2 mutation, etc, were done in support of the diagnosis of primary myelofibrosis with extramedullary hematopoiesis. With what symptoms did the patient present to the previous hospitals, <i>prior to the splenectomy</i> ? Are they indicative of chronic anemia? Did she have a gross splenomegaly? Yours may be the first case in English literature; others may have reported in non-English medical journals. What treatment, if any, was offered? What was the response – clinically and hematologically? What happened to the abdominal site of extramedullary hematopoiesis?	
Minor REVISION comments	Please replace 'our' with 'in this case' at all instances.	
Optional/General comments	None	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
