PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>What is the local garlic cultivar that farmers use? The objectives of the study are repetitive in the text. Lacked to describe the second study area with geographic, climatic, soil type, rainfall, etc. The seeds come from which local cultivar? Why do research institutions not provide seeds to farmers? Do you have any contact difficulties, any restrictions for not supplying? No local cooperatives were found that provide any assistance to farmers? Do they take any measures to mitigate crop pest and disease problems? How is the fertilizer used applied? in the two times that garlic is grown during the year, are the problems with insects and diseases similar, due to seasonality of temperature, relative humidity, etc.?</p>	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
