PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>(see reviewer's comments on the manuscript.)</p> <p>The author should rewrite the introduction and conclusions to make the points more clearly. Since the sample of cultivars is less than 100, the author should explain how the results can have statistical significance, regardless of the small numbers. The author should make more clear what traits' improvement would help the future use of maize. The author should spell out more about the traits found useful, as suggested in the reviewer's comments in the manuscript</p>	
Minor REVISION comments Correct spacing errors.	(reviewer has marked many of the spacing errors but not all)	
Optional/General comments		

PART 2:
