General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajaees.com/index.php/AJAEES/editorial-policy>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | You need to explain the RBQ values by relating them to the previous research. You need to state your research questions. | |
| Minor REVISION comments | Check grammar. There are some mistakes such as "can be opined", "divided to", "from large organization", "majority of" and many others. Why do you choose to collect data from these 142 entrepreneurs? What is the sampling technique? Refrain from using "analysis of" in the title. You should separate the Discussion section from the Results section because you need to discuss implications for future research and policy as well as limitations. | |
| Optional/General comments | The literature review is weak and so the author needs to substantiate the hypothesis formulation. | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| Are there ethical issues in this manuscript? | (If yes, Kindly please write down the ethical issues here in details) | |
