PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Language need to be edited Spacing and punctuation should be check Use more recent references	
Minor REVISION comments		
Optional/General comments	Good cases. Nicely presented and written paper. The diagnosis of actinomycosis can be made if we have this differential in mind while treating persistent complicated UTIs. As mentioned the culture will be only positive in less than half of the cases.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
