

Review Form 1.6

Journal Name:	Asian Journal of Cardiology Research
Manuscript Number:	Ms_AJCR_93986
Title of the Manuscript:	Rare case of complex bifurcation stenting in a patient of below knee acute limb ischemia
Type of the Article	Case report

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajcr.com/index.php/AJCR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	No major revisions are necessary. The manuscript is well written.	
Minor REVISION comments	Abstract: Spell out DM the first time you use it. Acute limb ischemia should be first, and put ALI in brackets after. Reference: Lower cases must be used (e.g. reference 1), except for the first letter of names. Latin word like in situ must be written in italic. Procedure details: Percutaneous should be lower case. Posterior should be lower case Be consistent with a space between the . and the first letter of next sentence. Be consistent with dimension: put or not space before and after the x (example: 3.5x23 mm vs 2.15x 15 mm) Conclusion should be bold.	
Optional/General comments	The manuscript is well written and easy to read. The case report will be helpful for other cases, over the world.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i> Yes. Informed patient consent is mandatory for the publication of your case reports. The authors must at least mention in the manuscript that the patient consent for the publication of his case report.
