General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajess.com/index.php/AJESS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> - The topic is relevant and potentially interesting but the manuscript does not meet the standards required for an academic publication -I suggest the manuscript shall be edited by a language professional. -While the overall structure is good, the content of each of the sections needs reconsideration. There is the issue of language and also flow of ideas is not well organized. - The Introductory section should have set the general background of the study than dwelling on specific discussions. -A brief literature review needed -Method lacks depth. -Results-no corroborations with other related studies -The manuscript appears to be extracted from a thesis/a research report and hence should be revised in a journal article format -Specific comments are given as track changes in the manuscript 	
Minor REVISION comments	-formatting problem, fragmented paragraphs/sentences	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p> <p>Yes, no mention has been made if the researchers got participants' consent to be pictured. Informed consent is one of the founding principles of research ethics</p>
