

Editor's Comment:

I have gone through the comments of the reviewers and the revised manuscript submitted by the author. While the paper investigates an interesting topic as pointed out by the first reviewer, the main concern with the paper I noted is the formation. It looks more like a thesis/research paper rather than a scientific research article that presents the findings in a concise manner. The total word count of this paper is around 16000 which appears too large as many unnecessary sections are put in it. I recommend the authors revise the paper accordingly, concise it and resubmit.
