PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Overall, the manuscript is well written by the author, and the work is appreciable, so it is good to publish without any significant corrections. The title should be short (maximum 3 lines) and attractive, I have suggested it from my side if applicable.	
Minor REVISION comments	The results must be in $Mn \pm SE$ methods, which proves that candidate has applied statistics during his data analysis. I HAVE NOT SEEN IT IN THE MANUSCRIPT	
Optional/General comments	Weight gain performance is not sufficient. There must be Final weight gain, SGR & FCR with survival % in the result. This supports how you have applied your food compared to commercial diets. An author must mention FEED FORMULATION for (A) Water Hyacinth and (B) Commercial Feed. But in the manuscript, I found only... Table 1. Proximate analysis and cost of commercial food Purina® brand and comparative values of diet prepared based on water hyacinth	comp
