Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://journalajfrn.com/index.php/AJFRN/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The introduction contains necessary information and the methodology is clearly stated. However, author(s) should correct the grammatical errors as pointed out in the main manuscript. All the areas of concern under abstract, materials and methods as well as results and discussion should be addressed. The figures must be discussed. Author(s) must follow the Journal reference format and in-text citations.	
Optional/General comments	Author(s) should comply with the suggestions made in the main manuscript. I suggest that the research article is accepted for publication after minor revision.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
