

Review Form 1.6

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_93028
Title of the Manuscript:	Application of autoregressive moving average model in the prediction of COVID-19 of China
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajpas.com/index.php/AJPAS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The proposed article in its entirety presents an innovative approach, since it deals with a model of cross-referencing information that predicts the occurrence of newborns with pneumonia due to the new Corona Virus. In this sense, I recommend the publication of the manuscript, considering the high degree of relevance and contribution to public health.	
Minor REVISION comments	Nothing to report Suggestion: submit the article for spell checking.	
Optional/General comments	-	-

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
