PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There is no mention of the outcome in terms of biopsy for proving utility of the PSA test. It summarizes the distribution of PSA Antigen in older men and fits the curve.	
Minor REVISION comments Abstract Prostate specific antigen (PSA) 4.0ng/ml Introduction [1] defined growth as the division and enlargement of cells. [3] defined cancer as a group of diseases that causes cells in the body to change and grow out of control, in other words, a growth disorder of cells.	Prostate Specific Antigen (PSA) 4.0 ng/ml Postlethwait JH et al defined growth as the division and enlargement of cells [1]. Carol D et al defined cancer as a group of diseases that causes cells in the body to change and grow out of control, in other words, a growth disorder of cells [3].	
Optional/General comments	Language needs to be edited in many places in addition to what was shown above.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
