

Review Form 1.6

Journal Name:	Asian Journal of Pediatric Research
Manuscript Number:	Ms_AJPR_92770
Title of the Manuscript:	Correlation Between Blood Ammonia Level And Esophageal Varices In Patients With Chronic Liver Disease
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajpr.com/index.php/AJPR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Good research work but the following points need clarification: 1. Was the questionnaire a pre validated one or had been designed by the investigators for this study only. It will be good if the questionnaire is attached as an appendix in this manuscript 2. Was there any other novel finding from this study apart from the correlation of the blood ammonia levels? 3. Can the blood ammonia levels predict something in Wilson's disease or it will only predict the associated CLD.	
Minor REVISION comments	Minor spelling mistakes in the manuscript could be corrected	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
