### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajpr.com/index.php/AJPR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The abstract is poorly written with the conclusion not tallying with the study results. Methodology was equally poorly stated, with detail on the instrument used for data collection, no formula use to guides for sample size calculation. The background of the study did not purely reflect about the topic. The study raised some ethical concern, as there was no principles guiding human subject research was complied with.	
<b>Minor</b> REVISION comments	The study findings was not well discussed with relevance to previous studies. Data analysis was inappropriate for the study. The use of odd ratios would have been the best analytical techniques	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
