

Editor's Comment:

I went through the received review material and based on that I recommend accepting the manuscript 2022/AJRAF/93447 "*Assessment of the Potential of NTFPs in Livelihoods' Sustenance of the Flood Proximate Communities of the Indus Basin*" for publication as an original research article.

While the acronym NTFPs (Non-Timber Forest Products) is quite common, I guess that not all readers would understand it. Therefore, I would suggest spelling it out in the title. I would also suggest adding the country name to the title. So, the title becomes as follows: *Assessment of the Potential of Non-Timber Forest Products in Livelihoods' Sustenance of the Flood Proximate Communities of the Indus Basin, Pakistan*.

I enclose the abstract with a few more small changes.
