PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. The author is required to prepare the manuscript very carefully and to avoid grammatical and spelling errors which can be observed throughout the manuscript.2. Why was ethanolic extract alone chosen for the study?3. What was the rationale for choosing this work since many studies have already been reported on the antimicrobial activity?4. At what season of the year was the sample collection done? Was a specimen preserved as a herbarium?5. The standard petri plate diameter 88 mm. How did you the zone of diameter of 70.6 mm, 68.97 mm & 66.89 mm. This would have covered the entire plate. How did you say that this is inhibition because of the extract?6. Why was the experiment not performed on a lower concentration?7. What was the standard drug used for the comparison of anti fungal activity.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
