

## Review Form 1.6

Journal Name:	<a href="#">Asian Plant Research Journal</a>
Manuscript Number:	Ms_APRJ_85534
Title of the Manuscript:	Temperature Variability Influence on Survival and Development of Citrus Leaf miner, <i>Phyllocnistis citrella</i> Stainton (Lepidoptera: Gracilariidae) in Tanzania
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalaprij.com/index.php/APRJ/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	In abstract, also describe the parameters of biology on which observations have been made at different levels of temperature. The introduction should focus more on the importance of the leaf miner, not on citrus production. In Tables, F-test value with P should be incorporated and the treatment comparisons by LSD test should be indicated. Plate1 (c) needs to be mentioned in the text. In general the study should be focused on the effect of temperature on the biology on leaf miner, not on the identification procedure and morphological characteristics both in results, and discussion sections.	
<b>Minor</b> REVISION comments	It is better if Table 3 is described first in the result section.	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
