PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	After reviewing the manuscript, it is clear that this is a qualitative study, but investigator stated it as being a cross sectional study design but the main data collection was done through FGDs. Author needs to change this to qualitative study design looking at transcendental phenomenology as I believe the way the study is being conducted albeit being in the form of FGDs as oppose to In Depth Interview (IDI).	
Minor REVISION comments	Please standardise the excerpts from the FGDs, in reference to which participants said what. Some are stated while others are not. If possible, for each theme, to add more than one excerpt from the FGD as supporting evidence.	
Optional/General comments		

PART 2:
