PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This is a survey study on frog consumption preferences in rural areas. Current statistics on frog consumption can be given. Questionnaires should be given in the method section. The authors used the following expression for statistical methods. 'All data collected were entered and analyzed using SPSS software version 20.0'. It is not clear which method was used for which analysis. It would be necessary to specify the factors that were studied with the which method. The graphs should indicate which statistical analysis is used.	
Minor REVISION comments		
Optional/General comments	The manuscript should be revised by native English speaker	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
