General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalca.com/index.php/CA/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>There are many Grammarly mistakes, I put yellow color on some only. Some mistakes can be evident to the ordinary reader is it would be a bad look to the journal if published as such.</p> <ul style="list-style-type: none"> - The length of the paper is exaggerated. Not all paragraphs are relevant to the subject. - There is no abstract with a short conclusion. - I did not get an answer to the question if one with heart failure and moderate scar opts to go to Germany for stem cell insertion, what is the percent of success and what is the percent of improvement of EF? <p>After corrections, it can be published.</p>	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
