PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The intriguing scope of this study is chiefly to propose the use of natural condensed tannins obtained by emi-synthesis to replace chemical antioxidants especially for preparing food antioxidants! Chemical antioxidants (even allowed by the most rules of all the States of the world) too often are teratogenic. So, the natural sources of well known of autoctone plants are always welcome!	
Minor REVISION comments	The paper is well written and shows step by step the importance of using diverse methods to obtain an excellent result.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i> Sure, the article shows ethical issues (I mean sensu strictu the Bioethics W.T. Reich exalted in 1978): the way to maintain and encourage sustainability.
