### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	This article is very well founded and organized. the manuscript is solid enough and technically solid because it presents the originality is very clear. But the conclusion has to be more closely suited to the goal. The conclusion is a fundamental part of the structure of the article where the objectives of the article are answered in this case.	
<b>Minor</b> REVISION comments	I think it is an excellent article, but it is necessary in the conclusion to see the state of soil fertility.	
<b>Optional/General</b> comments	The article is very well founded and organized, which has its originality, but the conclusion needs to be improved, it needs to be more detailed.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes. Kindly please write down the ethical issues here in details)</i>
