

## Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_93810
Title of the Manuscript:	Identification of Garlic Genotypes for Resistant Sources against Purple Blotch Disease
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Provide some important agronomic data (duration to maturity, plant height, bulb size etc) as well for each genotype. Perform correlation analysis to understand how disease severity affects plant growth.	
<b>Minor</b> REVISION comments	Indicate your checks/commercial varieties in your study	
<b>Optional/General</b> comments	It would improve your paper if you perform cluster analysis to group your genotype	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
