	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	<p>The authors have studied the Impact of Post-harvest operations on seed quality in soybean. They have followed cleaning of seed manually and mechanically and found suitable differences between both techniques. They have found that manual cleaning gives good results in comparison to mechanical cleaning. Data has been presented very well both in tables and in graphs. Results are significant.</p> <p>The language is good and literature has been surveyed thoroughly. I recommend the manuscript for the publication in the Journal.</p>
