### **PART 1:** Review Comments

	<b>Reviewer's comment</b>	<b>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</b>
<b>Compulsory</b> REVISION comments	<b>I suggest the authors to include more cites of researchers in the field related to concentration of sodic soil and its effect on crop production, comparing that research with their discussion performed in their study. I strongly recommend the review of different literature scientific research. Moreover, I think the authors must expand their introduction, discussion, and conclusion sections accordingly with new literature review that might strengthen their investigation.</b>	
<b>Minor</b> REVISION comments	None. I think the manuscript is well written and has not typo or redaction errors.	
<b>Optional/General</b> comments	I suggest the authors cite more articles related with the methodology they performed; and latter get a better understanding of the conclusions they found in their manuscript, discussing them with more details.
