

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_93477
Title of the Manuscript:	Farm-scale mapping of soil phosphorus and potassium fractions using geostatistical technique
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Nothing	
Minor REVISION comments	Nothing	
Optional/General comments	<ul style="list-style-type: none">- The idea of manuscript is good and worth studying.- The development of accurate and actual fertilization programs and recommendations must be based on accurate and real soil data, and this is what the researcher recommended in a research on the map and management practices of the main crop systems on the farm, especially potassium and phosphorous, because they are considered among the main nutrients for agricultural productivity and sustainability.- The manuscript is organized in a clear and easy to understand manner.- - The descriptions of methods, tables of data, etc. are sufficient for understanding of the presented work.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
