

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_93523
Title of the Manuscript:	Cytological Study of Anthers for Pollen sterility in the F7 Generation of a Rice (Oryza Sativa L.) Cross
Type of the Article	Research

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	<ul style="list-style-type: none">• The present study was conducted in a systematic way with future research scope.• The abstract of the study clearly summarizes the experiment conducted.• The introduction of the study was clearly explained with the purpose of the study, back ground in which the study was conducted. However, the objective of the study would have been mentioned in the introduction part.• The discussion part needs improvement, because it is presented just like a statement. The author may quote the reason behind the results obtained.• Future research scope may be included.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
