

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_93603
Title of the Manuscript:	Effect of Integrated Nutrients Management on Nutrients Content and Uptake of Forage Sorghum
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors were unable to effectively respond to the original study's main question by covering essential subtopics. The oldest references are used in the introduction and experimental sections, which are written briefly and without important details. Furthermore, their methodology section is useless and devoid of information and details. Moreover, the results and discussion section began with the statistical analysis results that had not been mentioned in the materials and methods section. Please use descriptive statistics to back up your claims. The presentation is a confused mess of weak sentences, and the language is a mess of weak sentences. Several verbs and sentences have been repeated multiple times. Because there are no longer any modes of action that are well-supported by graphics, the writers were unable to address the research objectives issue. In the results and discussion section, the writer listed all of the items and their findings, but did not discuss each point separately.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
