PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>This manuscript provides important information about the effects of different treatments combination under Hydroponics and Pot cultivation condition in climatic zones of Prayagraj for better growth and yield of Strawberry (<i>Fragaria ananassa</i>) cv. chandler. Some corrections need to be made, in order to publish the manuscript.</p> <p>Please, take into account the following recommendations to improve this manuscript:</p> <ul style="list-style-type: none"> - the general presentation of the manuscript should be reviewed, the extra spaces between words or the lack of spaces between titles, subtitles tables and text according to the requirements of the journal; - I recommend a revision of the manuscript according to the requirements of the journal (English, technical editing, etc.); - I recommend a critical approach to the literature that will enable you to analyses and interpret information, develop an objective point of view and set clear objectives; - The theoretical documentation of the study is limited, it does not include those recent bibliographic sources (materials, reports, publications, etc.) that provide a direct treatment of the research topic (a comprehensive review published on effects of different treatments combination under Hydroponics and Pot cultivation condition in climatic zones of Prayagraj for better growth and yield of Strawberry); - I recommend unitary editing of the title (see the word strawberry, which is spelled with 14TNR) - I recommend inserting in the Introduction paragraph some more recent studies relevant to the topic; - The methodology used in this study is not reported on similar studies, I recommend referring to similar and more recent studies; - The presentation of the Results and Discussions obtained from this study is very brief and I recommend an analysis of this issue; - I recommend unitary editing of the tables (see tables 5 and 6, write the values with a dot and not with a comma); - For the publication of this study, I recommend supplementing it with other determinations to support its importance and opportunity. <p>I recommend a carefully check of the full manuscript to correct any grammatical or syntax error.</p> <p>Based on the above mentioned, I recommend this paper for publication after performing the suggested.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
