PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|--|
| Compulsory REVISION comments | Paper has reviews on yield improvement attributed to phosphorus content in soil taken from different references. It has to bring out quantitative aspects regarding the extent of improvement to be given in the form of figurative, tabular or graphical illustrations to bring in value addition. | |
| Minor REVISION comments | Issues regarding yield improvement owing to phosphorus fertilizers are given along with different factors controlling the soil dynamics. Here some quantification such as approximate percentage improvement in yield, dosage percentage for different soil types needs to be given. | |
| Optional/General comments | The compilation is good with proper articulation. Overall the review paper requires incorporation of certain results from case studies given in reference papers. | |

PART 2:
